

Compact, lightweight, high speed

- small and light but with very high welding performance
- perfect for thin material and overhead welding
- powerful drive system for low maintenance operation
- patented high tech ceramic wedge
- stepless adjustment of all welding parameter
- user friendly operation
- material welding range: PE-LD, PE-HD, PE-C, PVC-P, PP, ECB, EVA, TPO

The smallest and lightest compact wedge welder in the world. Ceramic wedge for welding all different material types without changing the wedge.

Technical Data

Voltage	V	120/230
Frequency	Hz	50/60
Power consumption	kW	800
Temperature	°C (°F)	20–500 (68–932)
Speed	m/min (ft)	0,8–3,5 (2–11,5)
Welding pressure	N (PSI)	max. 1100 (250)
Size (l x w x h)	mm (inches)	210x210x210 (8,25x8,25x8,25)
Seam measurement (other measurement on request)	mm (inches)	15–15–15 (0,6x0,6x0,6)
Weight	kg (lbs)	5,6 (12,3) with 5 m cord
Markings		CE
